FALL ARRESTOR Lifeline Service Life Policy

Recommended service life of lifelines is 1 year from the date of sale, provided the lifeline still meets the inspection requirements outlined on page 2 of the manufacturer's instruction manual.

This is not a warranty either implied or otherwise. It is merely a reasonable product lifespan the user can expect when the lifeline is used for its intended purpose under normal conditions as specified, in the manufacturer's instruction manual.

If for any reason the lifeline no longer meets the inspection requirements outlined on page 2 of the instruction manual, it should be removed from service and tagged as unusable for Fall Protection or be destroyed.
